Daniel Fuller

Linear Regression Assignment

Assignment

The following analysis uses the Can-Path Dataset available in Canvas.

One of your biostatistician staff has conducted an analysis examining the association between different social and behavioural factors on Body Mass Index using the Can-Path dataset. Your goal as a epidemiologist is to use the analysis provided and develop a one page communication report/document to communicate the beginning of health promotion strategy for your region. You can write text, develop an infographic, and use outside knowledge to support the development of your report.

It is crucial when discussing obesity and weight status that we avoid adding to stigma as researchers and epidemiologists. There are a number of health consequences to weight stigma that we must attempt to avoid. At the same time, we need to work with people to try and improve health. Some resources here:

1. Puhl, R M., Wharton, C M. Weight Bias: A Primer for the Fitness Industry. Health & Fitness Journal. 2007; 11(3), p 7-11. <https://doi.org/10.1249/01.FIT.0000269060.03465.ab>
2. Phelan SM, Burgess DJ, Yeazel MW, Hellerstedt WL, Griffin JM, van Ryn M. Impact of weight bias and stigma on quality of care and outcomes for patients with obesity. Obes Rev. 2015;16(4):319-326. <https://doi.org/10.1111/obr.12266>.
3. Puhl RM, Himmelstein MS, Pearl RL. Weight stigma as a psychosocial contributor to obesity. Am Psychol. 2020;75(2):274-289. <https://doi.org/10.1037/amp0000538>

Outcome

The outcome is BMI. The histogram and summary statistics of the BMI variable is below.

##	Min.	1st Qu.	Median	Mean	3rd Qu.	Max.
##	15.16	23.34	26.52	27.35	30.27	49.94

Behavioural Factors

The behavioural factors included in the analysis are smoking, physical activity, alcohol consumption, and fruit and vegetable consumption. The descriptive statistics for the

SMK_CIG_CUR_FREQ Variable outlining the smoking status of participants.

(0) Does not smoke currently

(1) Current occasional smoker

(2) Current daily smoker

(3) Never smoked

##	SMK_CIG_CUR_FREQ	n	percent
##	0_Does not smoke currently	7552	33.8%
##	1_Current occasional smoker	554	2.5%
##	2_Current daily smoker	1782	8.0%
##	3_Never smoked	12488	55.8%

PA_LEVEL_SHORT Variable outlining the physical activity level of participants.

(1) Low level of physical activity

(2) Moderate level of physical activity

(3) High level of physical activity

##	PA_LEVEL_SHORT	n	percent
##	1_Low level of PA	6067	27.1%
##	2_Moderate level of PA	7297	32.6%
##	3_High level of PA	9012	40.3%

ALC_CUR_FREQ Variable outlining the number (units are a bit all over the place) of alcoholic beverages consumed.

(0) Never

(1) Less than once a month

(2) About once a month

(3) 2 to 3 times a month

(4) Once a week

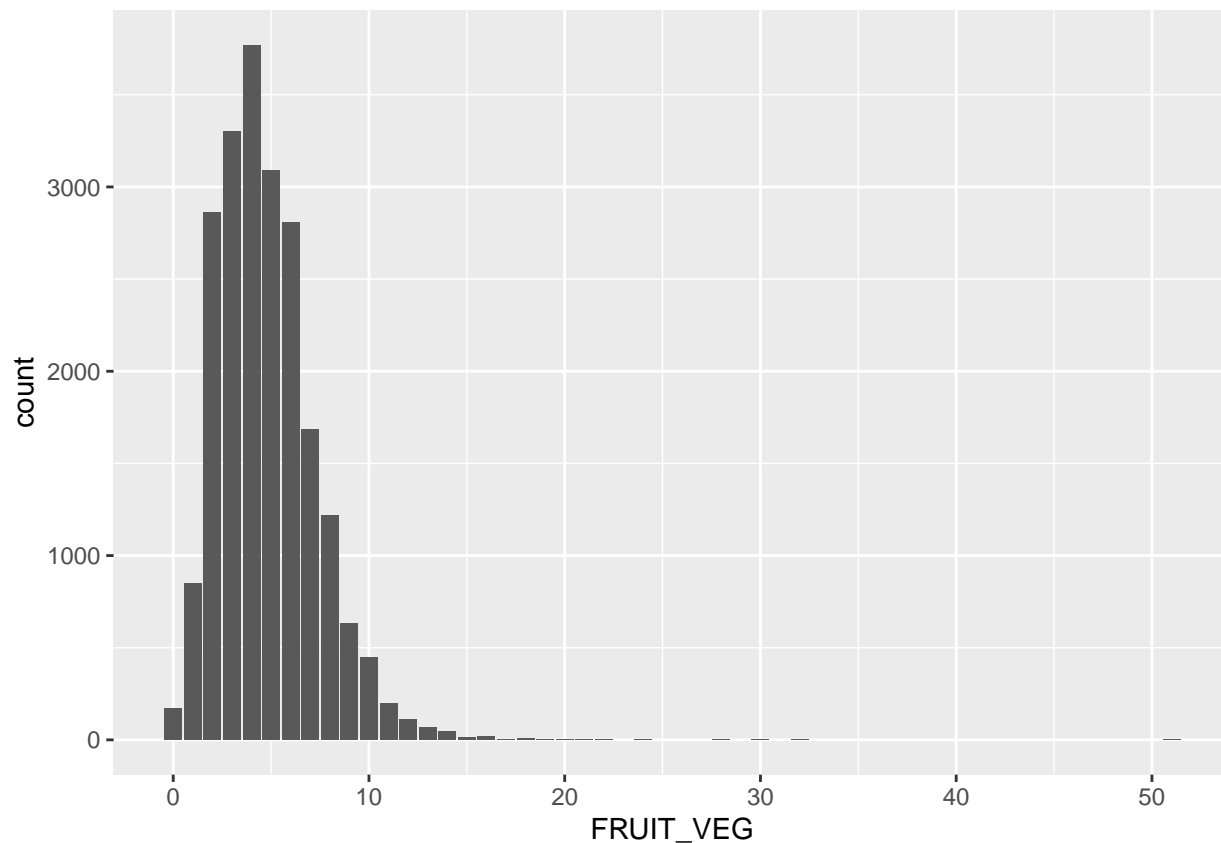

(5) 2 to 3 times a week

(6) 4 to 5 times a week

(7) 6 to 7 times a week

##	ALC_CUR_FREQ	n	percent
##	0_Never	1394	6.5%
##	1_Less than once a month	3848	18.1%
##	2_About once a month	1766	8.3%
##	3_2 to 3 times a month	2758	12.9%
##	4_Once a week	2536	11.9%
##	5_2 to 3 times a week	4173	19.6%
##	6_4 to 5 times a week	2465	11.6%
##	7_6 to 7 times a week	2373	11.1%

FRUIT_VEG Count of the number of fruit and vegetables consumed per week.

```
##      Min. 1st Qu.  Median    Mean 3rd Qu.    Max.
##      0.000   3.000   4.000   4.768   6.000   51.000
```

Social and Demographic Factors

The social and demographic factors included in the analysis are age, income category, student status, and education level. The descriptive statistics for these variables is below:

SDC_GENDER Variable representing the gender of participants.

- (1) Male
- (2) Female

```
##  SDC_GENDER      n percent
##      Female 12058   56.6%
##      Male   9255   43.4%
```

SDC_AGE_CALC Age of the participant at the time of completing the survey.

```
##      Min. 1st Qu.  Median    Mean 3rd Qu.    Max.
##      30.00  43.00   52.00   51.33  60.00   74.00
```

SDC_INCOME Variable representing the income of participants.

- (1) Less than 10 000 \$
- (2) 10 000 \$ - 24 999 \$
- (3) 25 000 \$ - 49 999 \$
- (4) 50 000 \$ - 74 999 \$
- (5) 75 000 \$ - 99 999 \$

- (6) 100 000 \$ - 149 999 \$
- (7) 150 000 \$ - 199 999 \$
- (8) 200 000 \$ or more

##	SDC_INCOME	n	percent
##	1_Less than 24 999\$	1371	6.4%
##	2_25 000\$ - 49 999\$	3207	15.0%
##	3_50 000\$ - 74 999\$	4051	19.0%
##	4_75 000\$ - 99 999\$	4162	19.5%
##	5_100 000\$ - 149 999\$	4771	22.4%
##	6_150 000\$ - 199 999\$	2204	10.3%
##	7_200 000\$ or more	1547	7.3%

WRK_STUDENT Variable representing if a participant is a student or not.

- (0) Participant is not a student
- (1) Participant is a student

##	WRK_STUDENT	n	percent
##	0	21118	99.1%
##	1	195	0.9%

SDC_EDU_LEVEL Variable representing the education level of participants.

- (0) None
- (1) Elementary school
- (2) High school
- (3) Trade, technical or vocational school, apprenticeship training or technical CEGEP
- (4) Diploma from a community college, pre-university CEGEP or non-university certificate
- (5) University certificate below bachelor's level
- (6) Bachelor's degree
- (7) Graduate degree (MSc, MBA, MD, PhD, etc.)

##	SDC_EDU_LEVEL	n	percent
##	1_Elementary school or less	267	1.3%
##	2_High school	3803	17.8%
##	3_Trade, technical or vocational school	1775	8.3%
##	4_Diploma from a community college	5186	24.3%
##	5_University certificate below bachelor's level	878	4.1%
##	6_Bachelor's degree	5996	28.1%
##	7_Graduate degree	3408	16.0%
